SUMMARY

Computer Engineering student at FAESA, 7th semester, with professional experience in administrative and infrastructure roles. At Estaleiro Jurong Aracruz (Seatrium Aracruz) I took part in a mobile project, from requirements gathering with stakeholders to UI/UX prototyping in Figma, coding and post-launch support. I build software with a focus on Rust, TypeScript and static web applications.

EXPERIENCE

Administrative Assistant Hospital Evangélico de Vila Velha Administrative work in a hospital environment, with document organisation routines and support for the department's internal workflows.	Sep 2025 – present
Infrastructure Assistant / Mobile Developer Estaleiro Jurong Aracruz (Seatrium Aracruz) Requirements gathering with stakeholders, UI/UX prototyping in Figma, mobile coding and post-launch support.	Oct 2023 – Feb 2025
